## Who is Coconut Joe

You'll enjoy the smooth vocal harmonies of Coconut Joe and the music of Hawaii born and raised singer/songwriter *Bobby Rogers*. Their performance features a fresh and eclectic musical journey and a view of life from our tropical paradise, often sharing the stories behind the songs.

Bobby is a third generation kama`aina (local) who was born and raised on the Windward shores of Oahu in the beach town of Kailua. His songs uniquely reflect growing up in the islands as well as a diverse musical background.

The group also features versatile, veteran Hawai'i guitarist *Frank Kam*, who teams with *Barbara Ann Rogers* to provide the backing harmonies. Frank is the rocker in the group. Though enjoying himself in the group's pop and light jazz tunes, he is right at home shaking the coconut trees with his rocking guitar solos and classic tunes interpretations. A perfor-

mance with the full band includes seasoned musicians bassist *Peter Agustin*, percussionist *Keoki Van Orden* & drummer *Paul Perrone*.

Together, they combine to present a fresh, eclectic performance of tropical musical art and entertainment from the Islands.

The *Turtle Bay Records* recording group together since '97 has release two CDs, their debut CD *Two Waters (Kailua)* and the latest release *Middle of the Ocean*. Their hits *Two Pineapples In NY City* and *Hawaiian Rain* from their first CD have had much success on radio stations and global internet charts. The group's latest CD is receiving air play on radio stations as far away as Tokyo, Germany and Ireland as well as across the US.

Check out the CJ DVD Sampler for a taste of this band's many musical styles including their recently released music video "*What a Wonderful Day (in Hawai'i Nei)*" and *CJ In Concert* video.
